## Paris Choking with Fuck Honour Cop21 Ego Supremacists pretending they give a fuck about climate change

In correspondence to CollapseNet and GMACCC: Global Military Advisory Board on Climate Change; available at EoP v WiP NWO negotiations Comments Correspondence [PDF]: 08 Dec CollapseNet; I stated, among others:

-----  
All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of *'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute'* and *'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands'* are not equal.

“Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine and whine and whine and whine about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.”

-----  
Put differently:

If the Cop 21 Secretariat gave a fuck about beginning to educate yourselves, those attending your ‘Climate Change Conference’, journalists and the worlds citizens about the scientific ripchord as opposed to the Masonic verbal gymnastics information regarding root causes of Climate Change: namely overpopulation and overconsumption; whose causes are the [Masonic](#)

[War is Peace](#) -- right to breed and consume with total disregard for [ecological carrying capacity limits](#) -- international law social contract; you would have invited any one of the following speakers to present their information; to begin the educational persuasion process as to how and why it is a matter of [military necessity](#) to implement an [Ecology of Peace](#) international law social contract; that restricts all the worlds citizens from all races, classes and religions to breeding and consuming below [ecological carrying capacity limits](#).

“Climate Change will become a defense and security issue, for four major reasons. There will be water wars, there will be oil wars, there will be massive migration on a scale the world has never seen, and there will be massive food insecurity. The two things of importance to the United States and UK will be issues of migration, which we already have problems with in Europe and the US. It will get much much more extreme. .. So much of our food is derived from Africa and Central and South America, if that starts to fail .. there could be rioting. There is an expression which is called nine meals from anarchy.” – Rosie Boycott, Former Editor of the Independent; [Climate Change and National Security](#).

## **UNFCCC, Cop 21 & GMACCC: EoP Cop21 Simple Root Cause Problem Solving Recommendation**

Negotiators from over 190 countries – representing citizens from many different races, classes, cultures, religions – have come together to negotiate a ‘climate change agreement’; to stabilize atmospheric concentrations of greenhouse gases (GHGs) to avoid “dangerous anthropogenic interference with the climate system”; with the aim of keeping global warming below 2°C.

Simplify Suggestion:

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Climate change – like food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources – is a direct and indirect consequence of overpopulation and overconsumption.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; provides the worlds nations citizens with the ‘right to breed and consume with total disregard for ecological carrying capacity limits’.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the international law social contract; to require all the worlds citizens to procreate and consume below ecological carrying capacity limits.

### ***EoP Cop21 Simple Root Cause Problem Solving Recommendation:***

Ask Cop 21 negotiators to vote on the following legally binding suggestion to eliminate the manmade causes of global warming.

Cop 21 negotiators agree to support international law legislation requiring all the worlds nations political parties to agree to implement national legislation by 11 September 2016; that requires all their citizens to procreate and consume below ecological carrying capacity limits. Any political party which refuses to cooperate; is to lose their political party license; and any nation that refuses to remove the violating political party’s license may be legally charged in an international court; by any individual in that nation or another nation with the intention to bribe their citizens to overbreed or overconsume; which shall be considered crimes of aggression acts of war; punishable by the death penalty for every single member of that political party.

Once implemented all political parties will be on an even playing field and will no longer be able to bribe their citizens with individual or corporate welfare to vote for their political party. Politicians shall have to find their [Thomas Sankara](#) backbones; to cooperate with their citizens to teach them how to become cooperating self-reliant sustainable nations.

Ecological Carrying capacity limits as stated in *EoP PoW et al -v- Norwegian Nobel Committee et al: Notice to UN Nation states Attorney Generals & ICC: ICC Private Prosecution ‘crimes of aggression acts of war’: Notice ITO of Article 5 & 15 of Rome Statute & ‘Nuclear Freedom Mutual Coercion Military Necessity for the Implementation of an Ecology of Peace international law social contract’ Rendulic Rule Military Necessity doctrine: Private Prosecution of*

*Respondents: Charges: Crimes of Aggression Acts of War; EoP PoW ICC Complaint; one of EoP options to implement EoP international law social contract:*

-----  
“If ecologists were ever asked to write a new Decalogue, their First Commandment would be: Thou shalt not transgress the carrying capacity.. Translated into human terms, the ecological first commandment becomes: Thou shalt not transgress the cultural capacity.” – *Garrett Hardin: Cultural Carrying Capacity and Tragedy of the Commons.*

“We must all understand that the most potent weapons of war are the penis, the womb, and the ego. Therefore, if you cannot convince a group to control its population and consumption to below carrying capacity limits; by discussion, debate, intelligent analysis, etc.; you must consider their action in using the penis and the womb to increase population; or ego’s unjustified demand to consume in violation of carrying capacity limits; an Act of War” – Amended version of quote by *Judge Jason G. Brent, in Humans: An Endangered Species.*

***Carrying Capacity Sustainability: I=PAT Equation:*** For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarised by what is known as the Ehrlich or IPAT equation,  $I=PAT$ . I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

***Carrying Capacity aka Biocapacity Limits:*** “The maximum number of individuals that can be supported sustainably by a given environment is known as its ‘carrying capacity’. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each. Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else. For example:

***Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million:*** 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

***Procreation Factor:*** As noted, the more people there are; the less biologically productive land there is available for everyone else. According to the research of Paul Murtaugh, the procreation factor that should be added by ecology footprint organisations to their Consumption footprint calculators, is 20 per child.

***Difference between Sustainable (Leaver Eco-Innocent) v Unsustainable (Taker Scarcity Combatant):*** An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor (Every child increases 20 Child Factor). If their IPAT footprint is below carrying capacity limits, they are an Eco-Innocent Leaver; if their IPAT footprint is above carrying capacity limits, they are a Scarcity Combatant Taker.

***Total Footprint = Consumption x Procreation Factor.*** To work out your Consumption footprint; you will need to use a Consumption Footprint calculator. Current online footprint calculators: [Global Footprint Network](#) (copy available at [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#)). See more at [Global Footprint's Application Standards](#), where they detail how their calculators calculate Consumption footprints. The quiz will ask you various questions about your consumption habits, and provide you with a final consumption footprint in global hectares which is your 'consumption footprint'. For the purposes of this calculation; avoid footprint calculator quizzes that do not provide you with your final consumption footprint amount, such as for example: [World Wildlife Fund's footprint calculator](#) or [Stanford International Students](#) (which is excellent and has great detail; but does not provide you with a final footprint in gha terms). Multiply your consumption footprint gha amount by your Procreation Factor: the number of children you have procreated multiplied by 20. The total amount is your Total Footprint.

### **Humans: An Endangered Species:**

The action I am initially proposing is value neutral and does not favor or harm any individual or group. The action I am proposing will be applied to every person or group without favoring anyone. The action is very simple---limit the right of any male to father only one live child and limit the right of every woman to one live birth. In simple terms a couple is limited to one and only one child—not one child for the male and one child for the female.

These limitations would be applied to every single human being without regard to race, religion, national origin or anything else and it would be absolute, no exceptions. It would be applied without regard for wealth, or the lack of wealth, and it would be applied without regard for the country of birth or residence of either the male or female. It would be applied without regard to intelligence, or the lack thereof, and without regard of the ability of the male or female to function in society. (At a later date when a method was agreed upon relating to dividing human beings into two groups, the ability to function in society would be considered in relation to who could or could not reproduce.) The right to either father a child or for a female to give birth could not be sold or transferred; it would be personal to the individual. If a live child were born

with a birth defect or with some other disability it would not permit either the father or mother to produce another child. Each couple would have the right to have all appropriate pre-natal tests to determine if the child in the womb would be born with a birth or genetic defect and if the chance existed that the child would be born with such a defect to have an abortion.

Since survival of our species depends on the one child rule, under my proposal any attempt to evade the rule would result in death of the evader and of any second child. The rule to be fair must be absolute, without a single exception. If the female cannot or refuses to provide the name of the father she and the child shall be immediately executed. All of the ideas set forth in this paragraph may be considered horrible and inhumane. However, since they will be applied equally, no individual or group is harmed except to the extent that an individual cannot either father or give birth to a second child. The harm caused to the individual and the harm caused to all of humanity by enforcing the one child rule set forth above is miniscule compared to the harm which all of humanity would suffer if population were not reduced.

Since the birth of a child is very hard to hide, there must be communal responsibility and accountability for any attempt to do so. Those who knowingly failed to report the birth of a second or any higher number of children would themselves be subject to the very same severe punishment that would be meted out to the parents of the second or higher numbered child—no religious, cultural or ethnic exemptions would obtain. Humanity cannot consider the evasion of the single child rule a game to be played with a minor penalty, if caught. No group or individual could be permitted any evasion of the one child rule that would lead to a disparity among groups and among individuals causing irreparable harm to the entire system established to reduce population. Should this sanction seem barbaric or draconian, it is surely less draconian in its effects than the merciless verdict of nature upon a species that refuses to contain its expansion.

In order for this proposal to be fair, equitable and workable, society and governments would be required to take action today to provide the means for every human being to control his or her fertility, to give everyone on the face of the earth the ability to limit birth to a single child. Governments would be required to devote a whatever portion of their Gross Domestic Product is necessary to the provision of artificial birth control devices of any and all types including sterilization, at low or no cost as appropriate, to their citizens, no matter the age of the citizens once a citizen reaches the age he/she can physically reproduce. This would also include instruction as how to use the devices. This would also include education of both males and females that the birth of a second child would result in the execution of the father and mother as well as the child. Governments would be required to provide safe, as much as any medical procedure can be safe, and low cost or free access to abortion. If any person, either male or female, had more than two failures of birth control devices, it would be conclusively presumed that the person was unable to use birth control devices and the person would be physically and permanently sterilized.

If poor nations were unable to devote the necessary funds to accomplish the one child rule in five years, the rich nations of the world would be required to assist the poor nations, after an evaluation that the poor nations were doing the best they could under some reasonable standard. Since survival of our species depends on reducing population below the current 6.7 billion humans now alive, the necessary funds to establish the system to control population must be made available. It should be emphasized that a "One-Child-Per-Family" (OCPF) law that is almost completely effective will not suffice. It must be totally and universally effective. After a five year preparation period, the rule must be enforced. The reduction in population

would continue under the one child rule until all of humanity agreed upon the method and criteria necessary to implement the two group solution described herein. Population would continue to be reduced pursuant to the method and criteria of the two group solution until it reached 300 million or some other lower number agreed upon by humanity. The number finally agreed upon would be based on the ability of the earth to provide resources for humanity to maintain an acceptable standard of living for a minimum of 25,000 years. And 25,000 years is infinitely small when compared to the 160 million years the dinosaurs ruled the earth.

No doubt any proposal that would recommend capital punishment for transgressors of the One-Child-Per-Family law presently evokes immediate revulsion and rejection. Outside the context of an imminent die-off, given our heritage of moral, religious and cultural programming, I would be surprised if it didn't. An example which shows that morality changes when circumstances change follows. Any Londoner who proposed in August 1938 that the Royal Air Force should one day bomb German cities with women and children in them would be summarily dismissed as a callous barbarian. But just two years later Londoners were clamoring for that action. Reality has a way of effecting abrupt ethical changes. What is not presently comprehended by almost all of humanity is that we are now in an emergency. Our species is on the brink of an unparalleled catastrophe—our destruction and the destruction of our civilization. It is a matter of complete indifference to me that many, if not all, readers will find the execution of anyone having a second child to be horrible and against every moral precept they learned or understood was applicable to humanity. The problem is not that my prescriptions are immoral or horrible. Rather the problem is that the situation humanity finds itself in is horrible. I will now remind the readers that under the law I propose every individual would be well aware of the consequences of flouting the law. Which of the two evils is worse--- a) executing anyone who knowingly violates the one child rule; or b) not reducing population such that the vast majority or probably all of humanity is destroyed? Under this system fertility drugs would not be permitted or if they were permitted and used, only one child would be permitted to be born alive or the rest would be destroyed at birth, if more than one were born alive. If a women gave birth to more than one child and fertility drugs or any other actions to increase fertility or the number of children born were not the cause, those children would be permitted to live. Each individual will have a very clear choice—execution or birth control or sterilization or abortion or abstinence.

-----

Similarly individuals who have been found guilty of overconsumption should also experience the same punishment as those who are found guilty of procreating more than one child; for exactly the same reasons as provided by Magistrate Brent; the exact same justifications can also be found in Garrett Hardin's Tragedy of the Commons.

Re: Your 'confidential information' automatic reply footnote.

As a matter of cultural and survival policy; I don't engage in confidential correspondence; unless the individual has requested my permission and I consider their reasons justified. For example: they are not public persons and have no interest in becoming public persons.

Considering the level of intelligence agency surveillance technology available – [Dr. John Hall & Israel Shin Bet Generals](#) -- only the dumbest of dumbfucks would think they are capable of engaging in confidential email correspondence. When Russian, American, Israeli, NATO, Chinese intelligence agencies can read your mind; and see what you type in your email; it does not matter what level of encryption you use to 'send' that email; they already have a copy of it from your thoughts and watching you type it.

I have not received any request from you to engage in confidential correspondence. Nor do I expect to receive any request from you to engage in confidential information; I imagine its just conventional Masonic fuck honour legal cultural verbal diarrhea. Not a problem.

I read your posting: [The End of CollapseNet](#).

Hope you manage to sort things out; but if not. I am sorry to hear [CollapseNet](#) will be closing down; as I was sorry to hear when Mike stopped [FromtheWilderness](#) investigations.

I know Mike and you; and others made huge time and resources contributions to researching and analyzing the information shared on both websites.

As you may or may not be aware at one time: way back in 1999 I was one of Michael Ruppert's few pro bono research assistants; way back when he was still [CovvCIA](#); long before the groupies arrived and he became an investigative journalist celebrity.

He parted ways with me way back in 2001 when I went on a hungerstrike to support UFO Disclosure Project witnesses; cause it would damage his alleged 'conservative investigative journalist cop' reputation; and refused to mend fences; even though my door was always open for the mending of our friendship.

I don't know the inner workings of Collapsenet or what the issues in dispute were with your subscribing members.

I don't know what motivates you or those who worked with you at CollapseNet; what your purpose was with CollapseNet.

***CollapseNet & Environmentalists Conscious or Unconscious Incorrect Analysis of Root cause of problem:***

I can only provide you with a brief analysis of my experience of a few of the major tactical errors of working with left wing environmentalists; including Michael Ruppert, much as I loved him, busted my butt to support him and admired his courage and tactical and strategic thinking.

Their 'environmentalism' is consciously or unconsciously based upon an incorrect analysis of the root cause of environmental problems. They will tell you that environmental destruction is the result of overpopulation and overconsumption. Yes. It is. They won't go further to address how and why overpopulation and overconsumption is allowed to legally occur. They won't touch the Masonic War is Peace 'right to breed/consume' with total disregard for ecological resource carrying capacity limits.

If their analysis is consciously and deliberately incorrect; they are engaged in fraud. Possible motives for their fraud: They are petrified of confronting non-Europeans about their breeding like cockroaches on Viagra behaviours? They prefer their continued self-righteous 'social justice warrior' white liberal progressive profiteering from non-European cheap labour?

If their analysis is unconsciously incorrect; and they are sincerely motivated to address the root causes of the environmental problems they complain about; they would welcome feedback to help them to accurately identify the root causes of the problem; so that they could focus and leverage all their energies, skills and resources on the root cause of the problem; so that it could be fixed.

I don't know why – if they are sincere about problem solving the issues they complain about -- their 'environmentalism' is consciously or unconsciously based upon an incorrect analysis of the root cause of environmental problems. I suspect its an ego environmental moral supremacist issue; psychologically not much different from ego Aryan moral supremacist issue; or the ego black power moral supremacist issue; and so on.

In my personal experience: Generals or people on the front lines of resource wars have the greatest appreciation for honest sincere information. If a General is in a battle and sends out a reconnaissance scout; then if he wants to win the battle; he wants that scout to be 100% honest with him about reality: number of troops, cannons etc. If he loses the battle he may lose his life and thousands of his soldiers lives; or he will be conquered and made an economic or other form of slave. If there are 10,000 zulu's or muslim suicide bombers over the next hill; and you are Andries Pretorius or Ariel Sharon; you want to know that; so you can immediately form your lager; to protect your tribe.

If you are an ego-mindfuck general you hire scouts whom you demand that they lie to you; cause you don't want to confront reality of the battle you are facing.

### ***Ecology of Peace and/or Anti-occult human sacrifice Generals:***

A lawyer or farmer may not care about Ecology of Peace international law social contract issues; but an anti-occult human sacrifice General would not be so stupid. Even a smart Masonic General who is open-minded to the possibility of errors in the Masonic occult way of doing things; would not say 'its impossible to implement an Ecology of Peace international law social contract'. Why not? He has no evidence that its impossible? It may be possible; or it may be impossible. He does not know. He needs more information. He says 'lets investigate whether its possible to implement an Ecology of Peace international law social contract'. Is it possible? If so how, when, where and by whom? That kind of thing.

Lawyers and farmers may not care about whether they are farming or lawyering on behalf of creating a world based upon Ecology of Peace justice principles; that would benefit all the worlds religions, classes and races; or whether they are simply being used as farming and

lawyer economic cannon fodder hitmen to steal resources; so that one tribe of farmers and lawyers can live like resource thieving rape the planet capitalists; while other tribes of farmers and lawyers have to live like slaves.

Generals and soldiers may feel different about whether they are going to war and dying on behalf of a world based upon Ecology of Peace justice principles; that would benefit all the worlds religions, classes and races; or whether they are simply being used as cannon fodder hitmen to steal resources; so that one tribe of farmers and lawyers can live like resource thieving rape the planet capitalists; while other tribes of farmers and lawyers have to live like slaves.

Generally speaking many Generals and soldiers don't mind dying in their battles; but a significant number of them do care what they are being asked to go to war and die for. If or when a General cannot convince his men that they are dying for a good cause: for justice for all; not just whites or Jews; he loses social status amongst his soldiers who care about justice for all. Some soldiers may just care about whites or jews; other soldiers care about justice for all.

### ***Ecology of Peace Invite:***

Put simply: If you are an Ecology of Peace or anti-occult human sacrifice lawyer; or even a smart Masonic lawyer open-minded to the possibility of errors in the Masonic occult way of doing things; who is not yet ready to say 'its impossible to implement an Ecology of Peace international law social contract; who is willing to contribute your legal skills to cooperate to investigate whether its possible to legally implement an Ecology of Peace international law social contract; you are invited to share your questions, thoughts, ideas, legal skills, etc.

Currently I am negotiating/educating on the importance of an EoP enforcement coercion option. See: *EoP v WiP NWO negotiations Comments Correspondence* [PDF]: 03 Dec: Oliver North & Times of Israel. I shall post a copy of this correspondence there.

As stated there: Put simply: If there is no enforcement coercion option – whether [EoP Axis](#) or [ICC IL Coercion](#) [PDF] or some other option as yet unknown – none of the other Ecology of Peace options will be listened to, sincerely considered or investigated; by people who simply refuse to non-violently honourably confront Ecology of Peace Facts Reality; and once confronted cooperate to implement an Ecology of Peace international law social contract.

If that is the case: Near Term Extinction will indeed be the reality for over 90% of humanity; if not all of humanity.

If you are not interested; or have other plans: All the best. If you change your mind; feel free to let me know.

Sure no problem. Try this for absorbing.

If Congress and the Senate overnight amend the US Constitution to an EoP Constitution; and tomorrow President Obama informs American citizens that the US Government have implemented an EoP Amendment to their Constitution; which will require all Americans citizens to breed and consume below ecological carrying capacity limits.

What civilian demographic would cooperate with law enforcement and if necessary national guard officials to implement the enforcement of the new EoP Amendments to the Constitution; and what demographic would refuse to cooperate?

How large or small is this demographic? Is it larger or smaller in different nations? Different ideological groups: conservative, capitalist, communist? Different religious groups: Christian, Muslim, Catholic? Age or racial groups: youth, pensioners, Europeans, Africans, etc?

Edit and Correction:

Depends which idea you are referring to.

All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of *'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute'* and *'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands'* are not equal.

For you maybe.

You being the demographic of fuck honour New York tits and ass ego environmental moral supremacist issue kike; that is totally understandable.

More accurately: a fuck honour New York tits and ass ego environmental moral supremacist -- "pretend I am an environmentalist concerned about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity reality international law social contract" -- kike.

Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine and whine and whine and whine about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism,

nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.

I read the [Counterfeit review on Black Five](#):

-----

He needs to determine if he should follow his orders or do what is right to keep America safer.

North explained that this administration either does not understand the magnitude of the problem or is not being honest with the American people. "By making a nuclear arms deal with Iran the world as we know it will change. The Iranians through the Koreans will get a bomb and the end result will be that the Saudis, Egyptians, Turks, and even the Japanese will get a bomb. The likelihood of a nuclear weapon going off grows dramatically and it is all do to the ineptness of this administration. Instead of limiting and reducing nuclear weapons this President's legacy is going to be enhancing nuclear proliferation."

The third part of the book discusses how bureaucrats seem to be more concerned about their own promotions then doing what is right. Bob Hamer points out to blackfive.net that there are basically two types in the FBI, "Those who go the street agent route or those that look for advancement by becoming administrators. It used to be you were promoted for the good you did. Yet, toward the end of my career it was that you got promoted if you did not do anything bad. One of my basic complaints was that the administrators always seemed to take the easy way out and not take any initiative. This was pretty frustrating for me. The FBI characters in the book, Jake and Trey, are typical street agents. I know a great many who are really like them and are more concerned with keeping Americans safe then getting promoted. They just want to be allowed to do their job. The quote in the book, 'It is easier to seek forgiveness than permission,' is the attitude of many. We just wanted to do what was right and instead many times had a monkey wrench thrown by headquarters."

North agrees with Hamer and weighed in, "Most of those wearing too many stars on their shoulders and too many stripes on their sleeves don't understand the war we have been fighting and have never experienced the sounds of gun fire. They try to fight this war by sitting next to a wastebasket in the Pentagon."

-----  
Keeping Americans Safe!!! Unbelievable.

American ignorance about the consequences of your rape the planets resources foreign policy for your fuck honour citizens greed are the greatest threat – in terms of past and future blowback -- to American citizens.

Americans along with Europe and Jewish bankers have essentially ruled the world for at least 50 if not 100 or more years.

What have they done with their military and economic power? Setup an Ecology of Peace international law social contract for the benefit of all the worlds citizens; from all races, religions and classes? No, they have and continue to rape the planet for their own capitalist greed; and wonder why blacks, browns hate them.

This is not to say Americans have not done allot of good; they have. They are a massively corrupt global policeman; but alternative global policemen – excluding Putin – could and probably would be far worse; than America has been.

However; could America have acted strategically in terms of how she used her power for good?

Could she have focussed on eliminating the root – Masonic War is Peace international law social contract -- causes of the worlds misery?

Did America and Europeans simply play gore-war pornography and fuck around with endless culling wars mopping up the overpopulation consequences of the Masonic War is Peace international law social contract? Her mopping up was not even that efficient; Stalin, Mao and Hitler were far better at mopping up culling population excess. Even Hutu's and Tutsi's who only had farm implements as tools to commit mass murder – no F15's, bombers, nuclear bombs, and who knows what kind of mass killing technology American military have access to -- culling put Americans to shame in terms of mopping up their population excesses.

Could Americans, Europeans and Jews and anyone else interested in a sustainable future for their children have used their power to educate blacks and browns and ignorant whites in simple English; about ecology of peace factual reality; so that we can all realize the necessity of implementing an Ecology of Peace international law social contract that requires all races, class, cultures and religions to procreate and consume below ecological carrying capacity limits?

Not yet.

If the Pentagon and FBI bureaucrats had gone to the Pentagon Macho Marines and FBI street agents and said: Please help us to educate our fellow political parasite bureaucrats and corporate elite rape the planet capitalist oligarchy about Ecology of Peace facts reality; so that we can work together to implement an American constitution based upon Ecology of Peace factual reality that requires all of American citizens to procreate and consume below ecological carrying capacity limits and set an example for the world to follow in our footsteps: what would Pentagon Macho Marines and FBI strate agents response have been?

If the Pentagon Macho Marines and FBI street agents had gone to the Pentagon and FBI bureaucrats and said: Please help us to non-violently educate the poor niggers, spicks, gooks,

japs, chinks, breeding like cockroaches on Viagra; about Ecology of Peace facts reality; before you send us into their American or foreign ghetto's as military police or occupying army national guard to pacify and/or cull them with bullets; so that we can work together to implement an American and international law social contract based upon Ecology of Peace factual reality that requires all of the worlds citizens to procreate and consume below ecological carrying capacity limits: what would Pentagon and FBI bureaucrats response have been?

Would they have said:

I think it's an excellent idea. I don't know if it can be done; but lets work together and cooperate to see if it could be possible. Here is how you can help me; how can I help you? What are our basic Ecology of Peace facts premises.....? and so on....

If so: They would have helped in the investigation to draw up the Ecology of Peace Reality facts working hypothesis conclusion that: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans [breed or consume above<sup>1</sup> ecological carrying capacity limits<sup>2</sup>](#), it results in [resource conflict<sup>3</sup>](#); (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural, racial and religious resource war conflict; humans must reform and/or abolish the [Masonic War is Peace<sup>4</sup>](#) international law social contract; and cooperate to implement an [Ecology of Peace<sup>5</sup>](#) international law social contract that restricts all the worlds citizens, from all races, religions and classes; to breed and consume below ecological carrying capacity limits.

They could print Ecology of Peace Facts Reality on millions of flyers and hand those flyers out to every parasite bureaucrats or corporate elite rape the planet capitalist oligarchs; to poor niggers, spicks, gooks, japs, chinks, breeding like cockroaches on Viagra. They could hold town hall meetings to answer questions. They could go to schools to teach children about ecology of peace facts reality. The list of shit they could do to cooperate is endless.

Instead the Pentagon bureaucrats and Macho Marines and FBI bureaucrats and street agents are writing books about how to keep Americans safe from being informed about the reality that the goddamn universe does not revolve around arrogant Americans' and their goddamn fucking rape the planet's resources ego's.

How long Americans along with Europe and Jewish bankers will continue to rule the world is debatable.

How much time do Americans, Europeans and Jewish bankers have to act strategically in terms of how you use your military and economic power for good? Five, ten, twenty years?

Can Americans, Europeans and Jewish bankers focus on eliminating the root – Masonic War is Peace international law social contract -- causes of the worlds misery; and leave the world a legacy of European and Jewish statesmanship?

Yes. If they want to?

Do they want to?

A few of them do. Enough of them? I don't know.

Netanyahu: We could easily destroy Al Aqsa; but we don't want to.

According to Michael Collins Pipers in *Final Judgement*: Israel's intelligence service, the Mossad, collaborated alongside the CIA and the Meyer Lansky Crime Syndicate in the JFK assassination because President Kennedy was working to prevent Israel from acquiring nuclear weapons.

According to Zander C Fuerza in *Masters of Deception: Zionism, 9/11 and the War on Terror Hoax*: Neoconservative Bush administration was either directly or indirectly complicit with Israel's Mossad to enact the WTC as a false flag inside job event; motivated by culling towelheads. In this case plausibly Benjamin Netanyahu was VP Cheney's maestro conductor master. The term 'war on terror' or 'global war on terror' was allegedly coined by Benjamin Netanyahu.

If Piper and Fuerza's evidence is accurate with regard to partial Mossad involvement in these events; then when PM Netanyahu says: We could easily destroy Al Aqsa; he could just as easily state. We could destroy the World Trade Center Towers; which we did want to. We could assassinate John F Kennedy; cause we did want to. We could destroy the Masonic War is Peace social contract; which we do want to; or which we may want to; or which we don't know if we want to.

Put simply: it appears that what he is saying is that if or when Israel Mossad make a final decision about what they want to do; then they generally can come up with a plan to accomplish what they want to do.

Difficult projects can be accomplished; if those who are involved in the project: sincerely want to accomplish the project.

The Masonic War is Peace international law social contract can be abolished; if a small group of committed dedicated people make the final decision that is what they want to do.

As Michael Ruppert said: [What do you want?](#)

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological foundation of life: our air, water and food by implementing an international social contract that restricts everyone's breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue

breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term ‘Near Term Extinction’ [NTE] which he writes about on his blog: Nature Bats Last.

There cannot and will never be any peace in a finite resource environment; between organisms who insist on overbreeding / overconsuming.

There can and will only ever be peace in a finite resource environment; between organisms who insist on cooperating to implement a social contract that requires all of the organisms in that finite resource environment to restrict their breeding / consumption to ecological carrying capacity limits; and evacuates the cheaters who overbreed/consume from the genepool.

If they don't cooperate to eliminate the cheaters from the genepool; the finite resource environment will violently eliminate 90% of them.

## 05 Dec Update:

Re: They are a massively corrupt global policeman; but alternative global policemen – excluding Putin – could and probably would be far worse; than America has been.

“Here they place Putin in context as part of the so-called Andropov levy, a generation of KGB officers recruited during the long (1967–82) chairmanship of Yuriy Andropov. According to Hill and Gaddy, Andropov saw himself as an enlightened, liberal secret policeman who emphasized the need to “work with people”—that is, to try persuade dissidents to change their minds and support the Soviet regime, but with obvious coercive threats looming in the background. They see Putin as adapting this approach to Russian politics today, trying to win through persuasion, but always ready to bring the full force of the state to bear on any opponent who does not see the wisdom of agreeing. Most notably, Putin used this method to bring the oligarchs to heel. Putin made it clear they would be allowed to make their fortunes but had to become apolitical, pay their taxes, and follow Putin’s policy line. He made it clear that their “property rights were ultimately dependent on the good will of the Kremlin,” with former oligarch Mikhail Khodorkhovskiy’s fate—a long jail term and seizure of his assets—serving as an example of what would happen to anyone who stepped out of line. It is the same method that Andropov used with dissidents, who knew that psychiatric hospitals and labor camps awaited anyone who failed to be persuaded by the KGB’s arguments.” - [CIA Review: The Man Without a Face: The Unlikely Rise of Vladimir Putin, by Masha Gessen and Mr. Putin: Operative in the Kremlin, by Fiona Hill and Clifford Gaddy](#)<sup>6</sup>.

“COIN is warfare at its most basic. It involves convincing an uncertain and frightened population that you can, and will, defend them – and help them both imagine, and believe in – a better future.” – Stan McChrystal

“In Blowback, I set out to explain why we are hated around the world. The concept "blowback" does not just mean retaliation for things our government has done to and in foreign countries. It refers to retaliation for the numerous illegal operations we have carried out abroad that were kept totally secret from the American public. This means that when the retaliation comes – as it did so spectacularly on September 11, 2001 – the American public is unable to put the events in context. So they tend to support acts intended to lash out against the perpetrators, thereby most commonly preparing the ground for yet another cycle of blowback. In the first book in this trilogy, I tried to provide some of the historical background for understanding the dilemmas we as a nation confront today, although I focused more on Asia – the area of my academic training – than on the Middle East.” -- Chalmers Johnson: *Nemesis: The Last Days of the American Republic*

I thought it had more to do with their miserable cowardice. I was getting furious again and Paulus noticed. He suddenly said to me. "Captain the time has come for junior commanders to take the initiative." I had to swallow hard. I was furious again. Here were 20 generals all too cowardly to surrender. The subject says in the conversation that he knows the truth that is hidden from others. He believes that there is a civil war in the country. He believes he had to kill at least twelve, because there is a censorship-wall preventing an open debate about what is happening in the country..... ### **Ecology of Peace Factual Reality:**

Ecology of Peace factual reality: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above [ecological carrying capacity limits](#), it results in resource conflict; 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict [national and international inter-cultural resource war conflict](#); humans must implement an Ecology of Peace international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

The principle of cooperation to implement an Ecology of Peace international law as opposed to competition over resources that I use in my Ecology of Peace Facts summary; is based upon the Nash Equilibrium mathematical principles that John Nash [[A Brilliant Madness: A Mathematical Genius Descent into Madness](#)] won a Nobel Prize for Economics upon. Put simply: That in any conflict; those who cooperate to share resources and resolve the root causes of the conflict; would have a better chance of success and winning the fight; than those who say 'the strongest' shall win all the resources; and have the right to enslave the weakest.

In the Beautiful Mind movie; John describes this [mathematics theory of cooperation to his student friends in a bar](#); like this.

They are sitting in a bar and in walks a beautiful blond Aryan woman; and they all start getting ready to fight each other to take her on a date; and John Nash laughs and tells them: Why fight about the few women you consider to be physically beautiful in appearance; instead of redefining beauty and cooperating to help all women to become beautiful in character. If you fight for a few physically beautiful women; only a few men will win a beautiful woman; if you redefine beauty in terms of character; you can then cooperate to help all women to grow beautiful characters; then every man in the process helps his own character; and goes home with a beautiful woman.

Similarly if humans cooperate to implement an Ecology of Peace international law social contract; then all the energy that is currently wasted by individuals, religions and races to fight over resources will no longer need to be wasted on resources; and humans will have more time and resources to investigate ideas such as whether God does or does not exist; or any other issue of concern they are interested in investigating to seek the truth about reality; but currently cannot do so; because they are just joining one or other religion for ethnic or religious tribal resource war purposes; in their Planet of the Apes fight for survival.

Imagine if Adolf Hitler and Joseph Stalin had invited Mao Tse-tun, Franklin Delano Roosevelt and Neville Chamberlain to meet and discuss options for pooling their military resources to pressure the international legal community to implement an Ecology of Peace international law social contract; for the benefit of all individuals from all races, classes and religions interested in Ecology of Peace responsible freedom?

Imagine if Nelson Mandela and the ANC had invited Hendrik Verwoerd and the National Party to meet and discuss options for leading the world towards an Ecology of Peace international law social contract; by working together to implement an Ecology of Peace social contract for an ethical responsible freedom South Africa?

To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict [national and international inter-cultural resource war conflict](#); humans must implement an Ecology of Peace international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits. This newspaper calls on all our readers to support us to educate all of the worlds citizens about the consequences of living under a Masonic War is Peace international law social contract; and how we can cooperate to implement an Ecology of Peace international law social contract to create a better future for all citizens from all races, religions, classes interested in responsible freedom.

***“If It Bleeds, It Leads” Media’s Population-Terrorism Connection:***

Put Simply: Terrorists and their Victims are to the Corporate Media and Political Elite, what Bad Newz Kennels pitbulls Mel and Georgia were to Michael Vick, Purnell Peace, Quanis Phillips and Tony Taylor. When editors deliberately deny problem solving political activists access to public discourse to raise consciousness about the ecological, political, psychological etc socio-political problems in communities that require solving; they create a socio-political pressure cooker environment, where the problems get worse and worse, and the activists are forced to confront the reality that their only access to public discourse problem solving on their issues of concern is: violent terrorism, the more spectacular and brutally violent, the greater the “If It Bleeds, It Leads” coverage; and un/fortunately the greater the Corporate Media Profits, and Politicians ability to use such violence for their own agenda’s of greater state tyranny control.

### **Anthropocentric Jurisprudence – Ego-Penis/Vagina – Matrix Monologues: & Phallic Symbols in Bhutan:**

When a member of civilized patriarchy is in conversation with his/her ego-penis/vagina: who is the boss in such relationship?

Is their legal rational, impartial, evidentiary mind, based upon ecological carrying capacity science, in charge?

Or are their ego-genitals demands to breed and consume with total disregard for ecological carrying capacity limits; to profit from vote fodder and cannon fodder surplus populations to use as their political and military battering ram to conquer other tribes to steal their resources; in charge?

Lama Drukpa Kunley lived in the 15-16th century (aka “Mad Saint” or "Divine Madman" or Madman from Kyishodruk) for his unorthodox ways of painting Thunderbolt of Flaming Wisdom Erect Phallus’ on walls, to shock the uppity and prudish Buddhist clergy. Traditionally erect penis symbols in Bhutan were to drive away evil spirits & malicious gossip.

"Representation of female nudity is conventionally a blatant sign of reduction of the female

to sexuality [...] Phallic imagery that reminds men of their self-centeredness is a counterculture, not a celebration of the male. It is a condemnation of the unchecked male ego, rather than a rigid fiesta of all things phallogocentric." - Dasho Karma Ura, president of the Centre for Bhutan Studies in the capital of Thimpu

### ***Daniel Quinn: Law of Limited Competition:***

The "Law of Limited Competition" is proposed as a Universal law -- like gravity (as opposed to a legal Law) -- of ecology, or life, by Daniel Quinn, in his book "Ishmael". The law roughly states that a predator may compete to its best ability, but it may not go beyond that - it may not reduce the natural ability of its competitors to compete. The outcome of the law is enhancement of Diversity.

The first example given in Ishmael is that of hyenas given the option to kill off lions (a competitor). In nature, this doesn't happen, however, if it did, the lack of lions would mean an expansion in the gazelle population, which in turn would allow for a greater population of hyenas, and, if the law continued to be broken, would reduce the entire Ecosystem to a homogenised cycle of hyena < gazelle < grass < hyena.

Quinn argues that humans are the only species to have broken this law, beginning with Agriculture (and removing the competition of the products thereof, ie. grazing species from "our" grain fields, Carnivores from "our" meat animals) and that we have a cultural myth that keeps us from realising this.

### **Astrid Dannenberg: Effective Climate Change Negotiations require Unconditional Cooperators.**

According to various research studies, preventing Ecological, Economic and Climate Collapse, and possible or definite Near Term Extinction, requires a sufficient number of national politicians who are unconditional co-operators, and is not possible under the current Tragedy of the Commons social contract jurisprudence status quo, which rewards free-riders and conditional co-operators, while punishing unconditional co-operators (Astrid Dannenberg (2012): *Climate Change Negotiations: Game Theory and Experimental Evidence*; Presentation; Scott Barrett and Astrid Dannenberg (13 Nov 2012): *Game theory suggests current climate negotiations won't avert catastrophe*; Gronewold Nathaniel (20 Dec 2012) *Game Theory: Climate Talks Destined to Fail*; Scientific American.)

In a political system based upon Tragedy of the Commons social contract jurisprudence, which (a) does not restrict and penalize citizens who procreate or consume above carrying capacity limits, and (b) in fact rewards citizens who procreate or consumes above carrying capacity limits; where all Taker and Leaver citizens are granted the license to vote; such Taker Cheater (conditional co-operators and free rider) citizens expectations, based upon ecologically illiterate social contract jurisprudence consider it their 'right' to demand that their political leaders continue to legislatively enable their cheating. Tragedy of the Commons social contract jurisprudence consequently results in citizens electing and re-electing politicians who uphold the Tragedy of the Commons social contract status quo, and punishing politicians who advocate on behalf of Ecology of Peace social contract jurisprudence.
